

**MAMA SAID (LUKAS GRAHAM)**

[Chorus]

                                  C      G  
Mama said that it was okay  
                                  Bm                  Em  
Mama said that it was quite alright  
                                  Bm                  Em  
Our kinda people had a bed for the night  
                                  D  
and it was okay

                                  C                  G  
Mama said that we were good kids  
                                  Bm                  Em  
and daddy told us never listen to the ones  
                                  Bm                  Em  
pointing nasty fingers and making fun  
                                  D  
'cause we were good kids

[Verse]

                                  Em  
Remember asking both my mom and dad  
                                  (Eb)                  Bb  
Why we never travel to exotic lands  
                                  Em  
We only ever really visit friends  
                                  (Eb)                  Bb  
Nothing to tell when the summer ends

                                  Em  
We never really went buying clothes  
                                  (Eb)                  Bb  
'cause folks were passing on the stuff in plenty loads  
                                  Em  
New shoes once a year and then  
                                  (Eb)                  Bb  
Out to play ball so we could ruin them

[Chorus]

[Verse]

                                  Em  
Don't get me wrong, I didn't have it bad  
                                  (Eb)                  Bb  
I got enough loving from my mom and dad  
                                  Em  
But I don't think they really understood  
                                  (Eb)                  Bb  
When I said that I wanted to deal in Hollywood

                                  Em  
I told 'em I'd be singing on tv  
                                  (Eb)                  Bb  
The other kids were callin' me a wannabe  
                                  Em  
The older kids they started bugging me  
                                  (Eb)                  Bb  
But now they're all standing right in front of me
